DUO WiFi

NETTALK DUO WIFI SETUP GUIDE – WPS

Follow these simple steps to setup your new netTALK DUO WiFi with your wireless router.

1. Make Sure you have activated your netTALK account online.

a. Connect the DUO WiFi to the router as shown in the figure below.

b. Wait 2 minutes for a solid green light on the DUO WiFi.

c. Pick up the phone to make sure you have a dial tone.

d. Using a paper clip, press and hold the Reset Button in-front of the DUO WiFi for 3-5 seconds.

e. The DUO WiFi will reboot and after a few seconds will flash amber, green and red to show it is ready to communicate with the router.

f. Now press the WPS button on the router. Generally the WPS button has the logo as shown in the picture below.

g. Once the router and the DUO WiFi sync, the DUO WiFi will reboot, the light on the DUO WiFi will turn solid green, and your phone will ring once as usual. NOTE: This may take 2-3 minutes.

h. You can now move your DUO WiFi and phone to a convenient location around your home. Make sure to stay within range of your wireless router for best call quality.
